SOFT SKILLS

- Teamwork & Collaboration
- Time Management
- Leadership
- Adaptability
- Communication

TECH SKILLS

- Java
- C
- Data Structures
- Web Development (HTML, CSS – Basic)
- Git & GitHub (Basic)

LANGUAGES

- English
- Tamil
- Malayalam

PROFILE

Dedicated B.Tech Information Technology student with a strong foundation in programming and problem-solving. Passionate about learning new technologies, building practical solutions, and contributing effectively to team-based environments.

EDUCATION

B.Tech - Information Technology 2023 - 2027
St. Xavier's Catholic College Of Engineering
CGPA: 8.0 (till date)

HSC 2021 - 2023
Victory Public School
Percentage : *77%*

PROJECT

Smart Soil Monitoring System JUNE 2025

Developed a smart soil monitoring system using ESP32 to collect and analyze real-time soil data for efficient irrigation.
The system monitors soil moisture and supports efficient, data-driven irrigation and water management.

Technologies Used: *ESP32, Embedded C, IoT basics*

Game Monitoring System JANUARY 2026

Developed the child-side mobile application using Flutter for a Digital Twin–based game monitoring system.
Integrated Flutter with a native Android background service via MethodChannels to display real-time gaming activity and controls.

Technologies Used: *Flutter, Dart, Android, MethodChannels, REST APIs*

INTERNSHIP

IoT Intern — KELTRON, Kerala JUNE 2025

- Worked on sensor-based embedded and real-time monitoring systems.
- Gained hands-on experience with ESP32 and sensor integration.
- Assisted in testing, troubleshooting, and automation implementation.
